

Initial Honors Specialization Plan:

Please select one course for each of the 5 quarters of your junior and senior years. For each quarter, please indicate a course in which you feel you would be able to complete a specialization project.

-you may find the course sequence for junior and senior years in your student handbook; be careful to follow the track for your selected area of concentration.

-at this point do not worry so much about what types of projects may be available in a course; instead focus on selecting courses which have a subject area which is relevant to your area of specialization.

Quarter	Course	Comments
Fall (junior)		
Winter (junior)		
Spring (junior)		
Winter (senior)		
Spring (senior)		

Is there a particular faculty member who you would like to be your mentor? If so, who?

--

Instructions: Please submit this form to Prof. Ana Simundic by the end of Week 2 (Fall quarter). You will be advised of your acceptance into the Honors Specialization Program by e-mail.
